Project Demo Planning

Date	26 October 2026
Team ID	
Project Name	Electric Vehicle Market Performance & Insights
Maximum Marks	1 Mark

Project Demo Planning:

This plan provides a clear sequence for demonstrating the individual EV analytics project. Responsible Member: Self. Team ID is intentionally left blank. The timings are suggested presentation durations for a concise project demonstration.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem	Introduce the EV analysis problem, project objective and intended audience.	1	Self
2	Dataset & Methodology	Explain the supplied CSV, key fields, data checks and limitations of the test dataset.	1	Self
3	Eight Visualisations	Walk through manufacturer sales, battery technology, range, capacity vs range, country records, customer ratings, capacity by battery type and model-year sales.	3	Self
4	Interactive Dashboard	Show the published dashboard layout and demonstrate the available filters and chart interactions.	2	Self
5	Tableau Stories	Present Story 1: EV Market Performance Overview, followed by Story 2: EV Technology and Customer Insights.	2	Self
6	Website & Conclusion	Show the project website, summarise key outputs and close with future improvements.	1	Self

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	State the project goal and the problem of comparing EV market and technology indicators.
2	Solution Overview	Explain the CSV-to-Tableau workflow, dashboard structure and two story themes.
3	Live Feature Demonstration	Open the dashboard; explore the eight views and available filters; show both stories and the website.
4	Q&A; Session	Answer questions and clarify dataset scope, assumptions and limitations.
